

What Makes These Trails Unique?

This is a managed forest. It is a great place to learn about trees, timber harvesting, wildlife, and forest regrowth. As you come back to visit over the years, watch forest succession take place. Small plants will increase in number and eventually new trees will grow taller and shade out the smaller plants.

Partnerships

These trails are provided through the generosity of the landowner, **Foxbard Farm**, in partnership with the **Town of Shelburne - Open Space Committee**. Funding for this brochure has been provided by a **Mohawk Trail Woodlands Partnership** grant to the Town of Shelburne by the **MA Executive Office of Energy and Environmental Affairs**.

Trail Rules are Posted at the Trail Head Kiosk.

Under Massachusetts State Law, all hikes are at your own risk.

Keep Dogs Under Control. Many visitors come to view birds and other wildlife. It is natural for dogs to chase wildlife. Keep dogs on a leash. Scoop and bury or haul home poop.

Please stay on, or at least relatively close, to the "marked" trails. Not all woods roads are part of this trail system. The public only has permission to be on Foxbard Farm property at this location. If you stray from the marked trail, you may be entering other private properties.
